About us:

SHREE TRANSFORMERS is an ISO 9001:2015 certified company manufacturing Power and Distribution Transformers ranging from 5 KVA to 10 MVA. We deliver high quality and robust technology transformers in industrial and commercial markets. With a dedicated team of professionals, technicians and engineers, we are one of the renowned and leading transformer manufacturers of India providing cost effective solutions to every customer's specific requirements.

We believe that quality is our obsession and customer satisfaction is our prime objective. We strive to put high quality inputs in our products to give out best performance in terms of reliability and efficiency. We also offer extended warranty periods to build customer confidence and trust on our products and services. Our motto of success is adhering to international quality standards, hassle free and prompt after sales services and encouragement from our valued clients.

Our Products:

Single Phase Oil Filled Distribution Transformer

We manufacture single phase transformers with robust cylindrical construction Pole Mounted Type from 5 KVA to 25 KVA. The core used is CRGO or Amorphous. The manufacturing material is either Aluminium or Copper while the installation can be indoors as well as outdoors.

Technical Specification:

Applicable Standard : IS 1180 Part-1 2014

Ratings: From 6.36 KV to 11 KV upto 25 KVA

Frequency: 50 Hz

Cooling: ONAN

Three Phase Oil Filled Distribution Transformer

We have been manufacturing these transformers for more than three decades in the range of 10 KVA to 2500 KVA with Aluminium and Copper wound. With standard frequency set at 50 Hz and Copper & Aluminium as primary materials, our transformers are IS 1180 Part - 1/IS 2026/IEC 60076 with ratings from 11, 22 & 33 KV 3 Phase upto 2500 KVA. The core can be fitted as per the customer requirements, either CRGO or Amorphous.

Technical Specification:

Applicable Standard : IS 1180 Part-1/IS2026/IEC-60076

Ratings: From 11, 22 & 33 KV 3 Phase, 10 KVA to 2500 KVA

Installation : Indoor/Outdoor

Cooling: ONAN

Class of Insulation : A/B

Tapping: As per customer's requirement

Power Transformer

Our company is also manufacturing 33/11 kV Power Transformers upto 10 MVA as per requirement of the customers. The transformers are manufactured with CRGO Silicon Steel annealed laminations, which are imported while EC Grade Copper is also used for winding. In order to maximize safety and durability, immensely safe flux densities and current densities are employed for designing purposes. As per IS 6600 directions, sufficient cooling ducts and radiators are put in place to check on overloads while all windings are fully ampere-turn balanced as well. The power transformers are also equipped with either Off Load Tap Switch (OLTS) or On Load Tap Changer (OLTC), as per the preference of the client. The optional fittings in Power Transformers include Lightning Arrester & Tap Changer with Off Load or On Load.

Special Type Transformers

- + Auxiliary Railway Transformers
- + Dry type Transformers
- + Non preferred rating Distribution Transformers
- + Inverter Transformers
- + Solar Transformers
- + Sub-station Transformers
- + Tailor made Transformers

Awards / Certifications

National Award in 1995 presented by Hon'ble President of India Dr. Shankar Dayal Sharma at Vigyan Bhawan, New Delhi.

Rajasthan Udyog Ratna Award for 'Best Business Practices' in 2019 by Hon'ble Chief Minister of Rajasthan Shri Ashok Gehlot at Jaipur.

India SME Top 100 Award presented by Hon'ble Minister of MSME Shri Giriraj Singh at New Delhi in 2019.

Best Performing Company Manufacturing (Medium) in Rajasthan by Hon'ble Union Minister of MSME Shri Kalraj Mishra at Jaipur in 2014

Vishwakarma Udhog Award 2011 presented by Hon'ble Chief Minister of Rajasthan Shri Ashok Gehlot at Jaipur in 2011.

Special Award for outstanding performance Presented by Bank of Baroda in the field of Mfg. of Engineering Goods in 2012.
